Surrogacy IVF with donor eggs

Terms & notes

1. A deposit of £2,500 is due when you choose a particular donor in order to reserve that donor
2. You have a 14 day cooling off period (from the date of signing the donor acceptance form) during which you may change your mind and obtain a full refund. Should you change your mind after the cooling off period, your deposit will not be refunded. You waive the right to the above cooling off period if you accept a donor within 14 days of the intended date of the donor starting stimulation.
3. The full treatment charge must be settled when your treatment plan is issued.
4. If your donor withdraws from treatment, your treatment charge will be refunded in full and you will be charged for the monitoring scans and blood tests you have had per our current prices
5. Should you decided to withdraw from treatment after the donor has commenced stimulation, there will be a £5000 treatment cancellation charge (including the deposit)
5. Should you decided to withdraw from treatment after the donor has commenced stimulation, there will be a £5000 treatment cancellation charge (including the deposit)
6. If you do not receive at least the minimum guaranteed number of eggs, your treatment charge will be refunded in full and you will be charged for the monitoring scans and blood tests you have had per our current prices
7. FET cycles abandoned prior to embryo transfer will be billed for monitoring scans and blood tests plus a £300 cycle admin fee; at embryo transfer, if there are no embryos for transfer we regret no credit will be issued.
8. If a cycle requires replanning, there will be a £100 charge.
9. If you are late to a monitoring scan appointment by 15 minutes or more, you will need to rebook the appointment and pay the scan fee of £200.

This price list is effective from 1 July 2023, serves for information purpose only and should not be treated as a formal service agreement. The above figures are intended as a guide and are subject to change without notice.
